Cashmere is the most precious type of wool, significantly finer than sheep's wool, and one of the most valuable animal hairs of any kind. ULRIKE HEFEL PURE CASHMERE only uses the highest grade undercoat hairs of the Mongolian goat. Each goat produces some 100 grammes of this hair per year. In order to survive the extreme conditions of their environment, where temperatures can drop to minus 45°C, these exceptional animals have developed hair that provides unmatched protection against the cold. The combed-out goat's wool is selected, repeatedly combed, sorted and made into these luxurious pieces by skilled hands. Locally in Mongolia, in the country of origin of the world's finest cashmere.

WHY IS ULRIKE HEFEL PURE CASHMERE SO LUXURIOUS?

- Very fine cashmere fibres - a mere 16 microns
- The length of our cashmere is 45 mm (!) - extra-long and exclusive! As a general rule, the longer and finer the cashmere hair, the higher its quality!
- Only cashmere hairs of the same length are processed
- Only Mongolian cashmere guarantees 100% purity
